Rainbow thresholds

Threshold functions are the central objects in the study of random graph theory. Following the recent breakthroughs on the abstract version of the thresholds, Alan Frieze introduced a rainbow version of the thresholds, aiming to push forward our knowledge on thresholds. We will introduce Frieze's problem and a solution. Joint work with Xiaofan Yuan (Arizona State University).

Date: 23rd April, 2024

Time: 2:00pm – 3:00pm

Location: 254, Science Building

연세대학교 수학계산학부

주최: 4단계 BK21 수리과학 및 계산교육 연구단

BK21 FOUR
